

get outside and get sustainable!

Back due
to popular
demand!

Are you ready for a hands-on day?

A chance to connect with other educators and hear about the sustainable practices happening at other services?

This special event will provide opportunities to engage in some hands-on fun. We will be exploring aspects of sustainability and nature play led by professionals from these chosen fields!

Jo Hendrikx from KESAB will be sharing an exciting and informative recycling presentation.

Plus we will be walking to Dove Street Playground to experiment and create with loose parts!
