

Nature Play: More than just a trend

Would you like to know more about how to incorporate natural risk play into your environment? How to engage children in fire making? How to link your ideas on nature play and your stance on sustainability together?

The outdoor learning environment offers rich learning possibilities for children yet is often overlooked. Children learn about the interdependence of living things, they observe and notice changes to the natural environment and consider how they impact and affect the world around them.

- Share perspectives and understandings of outdoor nature play
- Exploring the risks and benefits
- Challenging constructs of safety in connection with risk analysis and benefits based on current research.

Tuesday, 21st November
6pm - 8.30pm | \$88.00 p.p

What's new in the NQF?

Some National law and Regulations will change in October 2017.
A revised NQS will commence in February 2018.

Come and hear about the changes which apply to all services and reflect on implications for your work. This session is suitable for all types of services and roles.

Learn about the changes to:

- The standards and elements
- The rating system
- When services will be assessed against the new NQS.

Wednesday, 22nd November
10am - 1pm | \$88.00 p.p
